poslovni prostori
Commercial interiors

Iako se dizajn enterijera kuće fokusira na to da bude gostoljubiv i pogodan za život, komercijalni, odnosno poslovni dizajn enterijera usredotočen je na funkcionalnost i na praktičnost bez zane-marivanja stila.

While a residential interior design focuses on being welcoming and livable, a commercial interior design is focused on functionality and practicality of the space, also taking care of style.
